The evaluation of the World Sports Games 2015

The biggest event of CSIT is the biannual organisation of the World Sports Games. In the year 2015 it was the 4th edition of this event. Hosted by the CSIT member AICS in Lignano Sabbiadoro in the north of Italy.

The earlier editions of the World Sports Games were in:

- 2008 in Rimini, Italy organised by UISP
- 2010 in Tallinn, Estonia organised by KALEV
- 2013 in Varna, Bulgaria organised by BWFSH

This evaluation is based on the questionnaire that was sent out to by the office of CSIT on the 8th of August to all CSIT member unions and third parties participating.

CSIT received back 21 questionnaires till the closing date. Based on these received questionnaires CSIT analysed it and this resulted into this written report.

Questionnaire:
The questionnaire is build up into 3 parts:

- Organisational items
- Sports competitions
- Comments

Unions were asked to classify each item in a score from 1 - 5.
A score of 1 is very bad; the score of 5 is excellent.

For every item or sport the average score is presented on the next page.

The items in blue are related to organisational items; the items in grey are related to the different types of sports.

To give in one overview the results we sorted the items and sports in a ranking from the highest to the lowest score. The highest and lowest score are marked in red.

Difference in max and min score 1,5

Table 1: Table of scores

Difference in max and min score 0,75
Based on the scores we conclude the following:

**Organisational items**

- Participants were very satisfied about the sports facilities and opening ceremony.
- The work of the technical commissions and refereeing was satisfying.
- Items to be improved are the quality of the info centre, public transport and the evening entertainment.

There is a significant difference in score of 1.5 points.

A score below 3 can be seen as **not satisfying**.

**Sports**

The best-awarded sports are swimming and table tennis; less-awarded are the sports wrestling and beach wrestling, but even a score of 3.5 can be seen as satisfying.

There is just a difference in score of 0.75 points.

**Total impression**

An average score of **3.88** was given which can be classified between satisfying and very satisfying.

**Hotels**

The host offered the invited organisations different levels of hotels (from 2 – 4 stars). When choosing a 2 star hotel it means the hotels are of a different standard than a 4 star hotel. For that reason there is a price difference in the different packages CSIT offered. However the food should be of an expectable level. It might be that for this reason hotels scores are taken into consideration.
The comments CSIT received pointed out in which direction subjects need to be improved.

These comments will be shared with RIGOC, the organising committee of the World Sports Games 2017 in Riga, Latvia. Besides CSIT and LIGNOC received also compliments. Indeed the aim was to organise an unforgettable lifetime experience.

Even other third parties like the IRV conclude that the CSIT World Sports Games were an extraordinary wonderful experience for all Wheel Gymnastics officials, gymnasts, judges and accompanying tourists.

Nevertheless our goal for 2017 is to make it even better, bigger and more attractive to everyone!

September 2015

On behalf of the CSIT Working Group World Sports Games.
